

# SURFACE MOUNT THERMOMETER

2" Dual Scale Dial,  $\pm 2\%$  FS Accuracy

The **SERIES ST** Surface Mount Thermometer easily mounts to and measures the temperature of any ferrous surface.

**FEATURES/BENEFITS**

- Magnetic mount works on any ferrous surface

**APPLICATIONS**

- HVAC, air ducts
- Refrigerators

| MODEL CHART |                           |
|-------------|---------------------------|
| Model       | Range                     |
| ST250       | 0 to 250°F (-20 to 120°C) |
| ST500       | 0 to 500°F (-20 to 260°C) |
| ST750       | 50 to 750°F (10 to 400°C) |

**SPECIFICATIONS**

- Housing Material:** Aluminum.
- Accuracy:**  $\pm 2\%$  FS.
- Sensing Element:** Bimetal coil.
- Dial Size:** 2" (5.08 cm).
- Response Time:** Approximately one minute.
- Mounting:** Two Alnico magnets on back.
- Height:** 1/2" (1.27 cm).
- Weight:** 2 oz (56.7 g).
